

BSCI 701 Senior Seminar
for Biological Sciences and Biotechnology Majors
Spring 2021

Instructor: Dr. Kyle MacLea, kyle.maclea@unh.edu, (603) 641-4129.

Office hours: Always by appointment on Zoom. I am typically available Weds. and Fridays.

Course objective: This course is focused on building and refining your professional skill set. It will prepare you for life after college in your chosen professional field. It is also what you make it: The more time and effort you put into the course, the more you will get out of it.

Time: Asynchronous online. Assignments posted on Tuesdays most weeks. Presentation of senior capstone work at the Undergraduate Research Conference (a virtual event beginning April 21) is expected. Each student must present at the URC, plus comment on other students' work. After that, the course will be complete provided all additional activities have been completed as required in this syllabus.

Concurrent/Previous Completion of Capstone: The completion of your 4-credit internship/independent study/research experience should be completed this semester or it should have already been completed in the last semester (after you had earned 90 credits and thus senior status). This experience is not something that your instructor can arrange for you. If you have not completed or arranged a Capstone experience by the end of the drop period (March 5th, 5pm) you will be dropped from this class. If you do not yet have a capstone arranged, please contact Career and Professional Success and your Advisor immediately to get started. Typically, the Capstone is completed by taking one of the following courses for 4 credits: BSCI 792, 793, 794, or 795. The capstone course (if taking it in SP21) must be added by Feb 12th (end of add period). Final arrangements must be made for the capstone by March 1st or students will be dropped from BSCI 701. Capstones usually take the form of 120 hours of work, 40 pages of written work, a research project, or some combination or portion thereof. Your advisor or Dr. MacLea can help you nail the exact requirements down.

Textbook: *none*.

Capstone Journal: You will complete reflections, discussions, and career assignments, as well as prepare poster or oral presentations on your Capstone experience as assignments for this class.

BSCI 701 Senior Seminar

for Biological Sciences and Biotechnology Majors

MyCourses and Email: Check MyCourses (Canvas) every day. Non-urgent announcements will be posted on MyCourses. Urgent/time sensitive announcements will be sent, where possible, via email. Check your UNH email account (the account registered in MyCourses) often. This is the one I will use to contact you outside of class.

Netiquette Guidelines

Netiquette is the socially and professionally acceptable way to communicate on the internet. We are all expected to abide by these guidelines of "netiquette" when using online communication tools with your classmates and instructor. Guidelines can be found on the Student Resource Hub and the Faculty Resource Hub, and in this [knowledge base netiquette guidelines article](#).

Class Recording

Students enrolled in a UNH course consent to being recorded by UNH media platforms for educational and remote access purposes. The University and Zoom have FERPA-compliant agreements in place to protect the security and privacy of UNH Zoom accounts. Students may NOT share any recordings of the class, faculty, or other students outside of this course. Any media shared by other students may similarly not be shared outside of this course.

Disabilities: Although I don't anticipate that this course, which has no quizzes or exams, will require disability accommodations, the University is committed to providing students with documented disabilities equal access to all university programs and facilities. If you think you have a disability requiring accommodations, you must register with the Student Accessibility Services (SAS) office. The Student Accessibility Coordinator at UNHM is Jenessa Zurek. Please reach out to the SAS office via email at jenessa.zurek@unh.edu for registration information and disability related questions. Jenessa Zurek is available through phone and email Mondays and Wednesdays from 9am-2pm and occasional times on other days.

Academic Honesty: Because you will be turning in written work in this course and presenting material at the Undergraduate Research Conference or Winter Symposium, adherence to the University policy on plagiarism is expected. The University and Program policies on academic honesty are included below.

The Biology and Biotechnology Programs at UNH Manchester will strictly adhere to the University policy on academic honesty, as published in the UNH Student Rights, Rules, and Responsibilities Handbook (<http://unh.edu/vpsas/handbook/academic-honesty>). By turning in any piece of work in this course, you declare that you have read and understand the policy, and that you did not engage in any form of academic dishonesty as defined in the Handbook.

for Biological Sciences and Biotechnology Majors

Plagiarism can take many forms, such as: submitting someone else's work - in whole or in part - as your own; collaborating on answers for individual assignments, or allowing your own work to be used by another student; copying information from a web site or other text without proper documentation; buying a pre-written paper or lab report.

Cheating is mainly concerned with copying on exams or in lab, bringing crib notes into an exam or referring to notes or the textbook or any other source such as a programmable calculator, tablet, or cell phone during an exam. All electronic devices must be turned off and put away for the duration of any exam. Ear buds are not permitted.

Any instances of cheating or plagiarism will result in consequences that can range from a failing grade on the assignment for all students involved to dismissal from the University, as defined in the [UNH Student Rights, Rules, and Responsibilities Handbook](#).

Mental Health and Wellness

In partnership with The Mental Health Center of Greater Manchester, UNH Manchester offers free mental health sessions for students. Students can schedule virtual counseling sessions by emailing unhm.advising@unh.edu. Counselors will be available virtually on Monday, Tuesday, and Thursday from 9am-5pm.

The National Suicide Prevention Lifeline provides 24/7, free and confidential support via phone or chat for people in distress, resources for you or your loved ones, and best practices for professionals. Call (800) 273-TALK (8255).

Addressing the Needs of Students of all Faiths

In the event that a student needs accommodation for a religious or cultural holiday/observance, that student is encouraged to make that request as early in the semester as possible.

Library: The UNH Manchester librarians are available to assist you with your research. You can contact a librarian by calling 603-641-4173 or by emailing unhm.library@unh.edu.

The following online resources provide information about library resources and services:

Reserve a study room for Zoom classes:

<https://libraryguides.unh.edu/remotearchive/studyrooms>

Food Pantry: : The campus food pantry has pre-packed bags of non-perishable food items for students in room 437. If you have any questions, contact Student Involvement on the 2nd floor.

Sexual Harassment and Rape Prevention Program (SHARPP): Provides free and confidential advocacy and direct services to survivors. (<https://www.unh.edu/sharpp>.)

Title IX Confidentiality and Mandatory Reporting

The University of New Hampshire and its faculty are committed to assuring a safe and productive educational environment for all students and for the university as a whole. To this end, the university requires faculty members to report to the university's Title IX Coordinator ([Donna Marie Sorrentino](#), (603) 862-2930/1527 TTY) any incidents of sexual violence and harassment shared by students. If you wish to speak to a confidential support service provider who does not have this reporting responsibility because their discussions with clients are subject to legal privilege, you can [find a list of resources here](#). For more information about what happens when you report, how the university considers your requests for confidentiality once a report is made to the Title IX Coordinator, your rights and report options at UNH, including anonymous report options, please [visit the student reporting options page](#).

Grading for Course:

This is a CR/F course. NOTE: You must reach a grade of C- (70%) to pass this course with a grade of CR according to major requirements.

Weekly Assignments (10 pts/each)	80 pts
Participate in Career or Other Events	100 pts
Submit Poster/Presentation to URC	50 pts
Present Poster/Presentation at URC	100 pts
<u>Provide Feedback to Other URC Students</u>	<u>50 pts</u>

380 pts
