and by appointment

Course objective:

This course is focused on building and refining your professional skills. It will prepare you for life after college in your chosen professional field. It is also what you make it: The more time and effort you put into the course, the more you will get out of it.

Prerequisites:

You must have completed, or expect to complete before the end of the semester, a Capstone Project (internship, independent study, or research project).

Textbook: None

Schedule: Th. 1:00-2:00 pm

Grading: Credit/No Credit

Attendance:

Attendance in class is expected. Excessive absences may result in a grade of No Credit.

Capstone Journal:

You will complete a series short, reflective essays on assigned topics about your Capstone experience during class, if time allows, or as homework assignments. This will be in the form of a Microsoft Word file. Bring a laptop/tablet to class each week in case you have time to work on a reflection during class. Your collection of reflective essays must be submitted to Canvas by May 10.

ADA Statement:

The University is committed to providing students with documented disabilities equal access to all university programs and facilities. If you think you have a disability requiring accommodations, you must register with the Disability Services Office. The Disability Services Coordinator at UNHM is Jenessa Zurek. Jenessa can be contacted at (603) 641-4383, Jenessa.Zurek@unh.edu, or in person in the Student Services Suite.

Academic Support/Tutoring:

The Center for Academic Enrichment is a resource for all students enrolled in UNH Manchester courses. Its mission is to help under-prepared students prepare, prepared students advance, and advanced students excel. Trained peer tutors and professional staff provide free assistance with reading and writing in all courses, as well as content in all math and science courses. Support for other content areas is dependent on the background and competencies of current peer tutor staff. All enrolled students are entitled to 1 hour of free one-to-one tutoring per week, per course. In addition, peer and professional tutors may run study groups for your class and provide drop-in math tutoring. Please visit us online at manchester.unh.edu/student/center-academic-enrichment to learn more about our services or to make an appointment with a tutor.

Academic Honesty:

The Biology Program at UNH Manchester will strictly adhere to the University policy on academic honesty, as published in the UNH Student Rights, Rules, and Responsibilities Handbook (<https://manchester.unh.edu/current-students/academic-counseling#student-rights>). By turning in any piece of work in this course, you declare that you have read and understand the policy, and that you did not engage in any form of academic dishonesty as defined in the Handbook.

Plagiarism can take many forms, such as: submitting someone else's work - in whole or in part - as your own; collaborating on answers for individual assignments, or allowing your own work to be used by another student; copying information from a web site or other text without proper documentation; buying a pre-written paper or lab report.
